

AMSI Summer Symposium in Bioinformatics

2012 BioInfoSummer

3rd – 7th December 2012

Venue:

University of Adelaide

Bioinformatics, is an exciting, fast-moving area analysing and simulating the structures and processes of biological systems. BioInfoSummer introduces students, researchers and others working in related areas to the discipline.

The program features:

- Day 1 Introduction to biology and bioinformatics**
- Day 2 DNA based bioinformatics (NGS/RNAseq)**
- Day 3 Proteomics**
- Day 4 Computational Biology**
- Day 5 Programming for Biologists**
