

# 2014 BioInfoSummer

Monash University  
1-5 December 2014

image of parallel telomere quadruple created by Thomas Spletstoeser

Bioinformatics is an exciting, fast-moving area analysing and simulating the structures and processes of biological systems. BioInfoSummer introduces students, researchers and others working in related areas to the discipline.

**Register your  
interest for  
BioInfoSummer  
2014**

**The program features:**

- Introduction to molecular biosciences and bioinformatics
- Next-generation DNA sequencing and sequence evolution
- High-throughput technology and omics data analysis
- Methods in bioinformatics
- Systems biology

AMS  
AUSTRALIAN MATHEMATICAL  
SCIENCES INSTITUTE

Australian Government  
Department of Education

MONASH  
University

EMBL  
Australia
