

# AustMS Members: Join SIAM. at a 30% discount!

- *Acclaimed scientific journals and books*
- *Advocacy efforts to increase funding for research & education*
- *Outreach to students*

These are just a few of the ways in which SIAM supports the advancement of applied mathematics and computational science.

If you are an AustMS member living outside the United States, join SIAM as a reciprocal member and become part of our international and interdisciplinary community of more than 14,000 mathematicians, computer scientists, engineers, and physicists.

SIAM members are educators, practitioners, researchers, and students from more than 100 countries working in industry, laboratories, government, and academia.

As a member of SIAM, you will have opportunities to share research with fellow scientists from around the world and access to comprehensive, current information in your field.

Go to [www.siam.org/joinsiam](http://www.siam.org/joinsiam) to join online as a reciprocal member and receive a 30% discount.
