

AMSI-ANZIAM
Lecture Tour

**Professor
Stephen Boyd**
Stanford University

Samsung Professor of Engineering
Professor of Electrical Engineering

Stephen Boyd's current research focus is on convex optimisation applications in control, signal processing, and circuit design. His group has produced several open source tools, including CVX (with Michael Grant), a widely used parser-solver for convex optimisation.

The AMSI Lectureship is awarded annually to a distinguished mathematician or statistician in conjunction with ANZIAM and SSAI.

**See website for lecture dates—tour starts 19
September 2013**
