

# Winter School 2015

on Algebra,  
Geometry &  
Physics

29 June – 10 July 2015  
The University of Queensland

## Introductory and advanced courses in:

- K-Theory
- Geometric Representation Theory
- Vertex Operator Algebras
- Moduli Spaces

## Who should attend?

Students and researchers working on the interface of geometry and mathematical physics.

**Students! Apply for a full travel grant**

*In collaboration with the 2015 ANU Geometry and Physics Special Year*
